**Custom Programming Deposit Agreement.**

Date :

Name:

Address:

City, State, Zip:

I, \_\_\_\_\_, hereby authorize Matheny Enterprises to charge my credit card, included below, a deposit, in the amount of \$ \_\_\_\_\_, for custom programming services. I have attached the requested “work scope” (definition of the work to be completed) and I have already received an “estimate” from Matheny Enterprises.

I understand and agree to the terms and conditions as described to me by Matheny Enterprises. To this extent, I agree to and understand the following may apply to my request for custom programming development.

- a. Any modifications from the original “Project Scope” will likely increase the cost and development time of the entire project. Any changes requested by the client, will be added to your original estimate.
- b. Sometimes, development of some portions of the project are simply not capable of being accomplished, or are too costly. Matheny Enterprises will prompt the client for consideration if such issues arise.
- c. Initial development of custom projects often include bugs or errors. The client realizes these are likely to happen and agrees to hold Matheny Enterprises “forever harmless” from any loss resulting in such bugs. Finding and resolving bugs is part of the development process.
- d. I, the client, agree to completely satisfy the verbal contractual agreement entered into with Matheny Enterprises. I understand that this initial deposit is simply a “retainer” and that the actual total development costs will likely exceed the deposit amount.
